SMART FINANCIAL PLANNING AFTER RETIREMENT

Retirement brings greater freedom and also the need to manage your finances thoughtfully. A few simple reminders can help you stay financially secure and enjoy this new chapter of life.

1

MAKE YOUR MONEY LAST FOR YOUR LIFETIME

Treat your retirement corpus as something to support you throughout your life. Keep enough aside for your regular expenses, emergencies, healthcare and future needs.

2

SUPPORT YOUR CHILDREN – BUT PLAN FOR YOURSELF TOO

It is natural to want to help your children. However, avoid giving away all your savings or retirement funds at once. Retain sufficient funds in your own name for your living expenses, healthcare and future needs.

3

MAKE A WILL

Clearly record how you would like your assets to be distributed. A properly prepared Will can help reduce confusion and avoid disputes among family members. Keep it updated when circumstances change.

4

KEEP NOMINATIONS UPDATED

Ensure your nominations are updated for bank accounts, investments, insurance policies and other assets. This helps your loved ones in the event of an unfortunate situation.

5

BE CAUTIOUS OF “GUARANTEED” RETURNS

Be wary of schemes or investments promising unusually high or guaranteed returns with little or no risk. If something sounds too good to be true, pause, verify and seek advice from a qualified professional.

6

KEEP YOUR INFORMATION SAFE

Never share your OTPs, PINs, passwords, CVV or banking credentials with anyone. Be careful with unsolicited calls, messages and investment offers. Verify information only through official and trusted sources.

7

DON'T MAKE DECISIONS UNDER PRESSURE

Take time before making major financial decisions. Discuss with someone you trust and, where appropriate, consult a qualified financial or legal professional.
